Air Mix Shower for Pets with Stop

Shower

Air Mix Shower for Pets with Stop

**This shower is specially
designed for pets.**

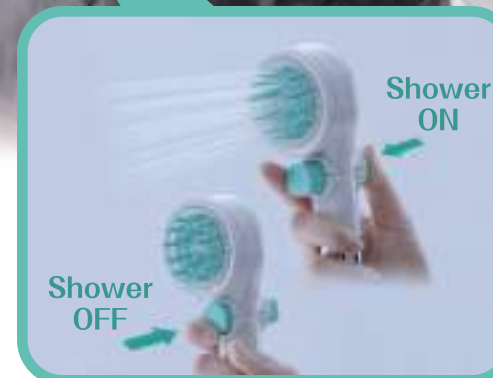

Soft elastomer brush

Can be washed and brushed at the same time, effectively removing dirt and hair, leaving the pet clean. Garbage clogs and chalky stains can be removed simply by scrubbing.

With Stop button

The shower can be turned on and off with a simple touch, making it ideal for washing pets while keeping them still.

Easy to install!

Simply remove the shower head and install.

Water Purification Capsule

Chlorine in tap water is a cause of tingling skin and dry hair. By removing chlorine, people concerned about beauty and dry skin, as well as those with weak skin barrier functions such as infants and the elderly, can benefit from healthy and gentle water.

Chlorine damaged hair

Healthy hair with well-formed cuticles

Turn the ring next to the screen to turn the purified water on and off.

Effective use of water purification ON/OFF switching

When tap water (OFF)

Bathroom cleaning
normal shower use

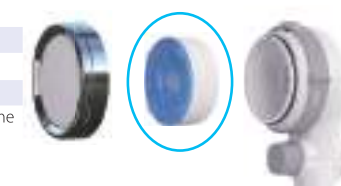

When purifying water (ON)

For those concerned about beauty and dryness, infants, elderly people, etc.

Estimated replacement period: Approximately 2 months assuming one cartridge is used for 8 minutes (64L) per day

Water purification performance

Material to be removed	Free residual chlorine
Filtration Flow Rate	8.0L/Minutes
Purifiable water temperature	0~50°C
Removal rate	Total Filtration Water Volume 4,000L Removal rate 50%

Micro Hole Screen

A high-density shower with 234 evenly-spaced shower holes, 1.9 times more than our previous model. It achieves fine, gentle contact with the skin, increases shower force, and saves energy.

Shower ON/OFF switch button

Life-sized

Shower

Purified water shower head with Stop

Air Mix Shower with Stop

A shower with a pleasant, stimulating water flow that beats out a subtle rhythm

○A pleasant sensation that contains air

The shower takes in air and creates a rhythmic water flow that provides a pleasant sensation. It also saves water.

The shower holes are made of rubber, so you can easily remove debris and limescale by simply stroking them.

Bubble Shower with Stop

Contains ultra-fine bubbles at approximately 35.5 million bubbles/ml*1 and has a gentle feel on the skin.

Ultra-fine bubbles with a diameter of less than 0.002 mm

Ultra-fine bubbles*2 are extremely tiny bubbles that are invisible to the naked eye.

Large bubbles	Microbubbles	Ultra-fine bubbles
		
1mm (1000 μm)	0.001 to less than 0.1mm (1 to less than 100 μm)	Less than 0.001mm (Less than 1 μm)
【 Comparison of bubble sizes (diameter)】		

*1...The difference in the amount of bubbles generated before and after the pleasant bubble shower (water temperature: 40±1℃, water flow rate: 12.6L/min) (the value varies depending on the water quality, environment, and time of year). Measuring instrument: Average value of a total of five measurements taken using Malvern Panalytical's Nanosite "NS300" in accordance with the Fine Bubble Industry Association standard "Fine Bubble Shower Head Test Method (FBIA 3-1-1:2019)" (measured by a third-party organization on March 16, 2022). Ultra-fine bubbles: average diameter 0.22 μm, most frequent diameter 0.20 μm

*2..."Fine bubbles", "Ultra fine bubbles", "FINE BUBBLE", and the "FBIA" logo are registered trademarks of the Fine Bubble Industry Association.

Save up to 35% with this pleasant, aerated sensation! (Compared to our other products)

Bathroom Shower
Head S BABYA shower that feels soft
on your baby's skin is perfect!3 reasons
why it feels so good!

- 1 High density shower with evenly-spaced shower holes that are 2.8 times* (351 holes) denser than conventional shower heads.
- 2 Ultra-fine holes of about 0.3 mm create a delicate water flow
- 3 Soft shower: The number and diameter of holes have been optimized to create a water flow that is gentle on the skin.

Compared to our other products

Since the shower can be aimed precisely
where you want it, it can be used safely even
by children who don't like showers.JSA011AAS

Connection example

Spiral G Hose

The hose expands and contracts! No need to rewind!

Easy to install,
no faucet connection tools required

Double layer pressure resistant threaded hose

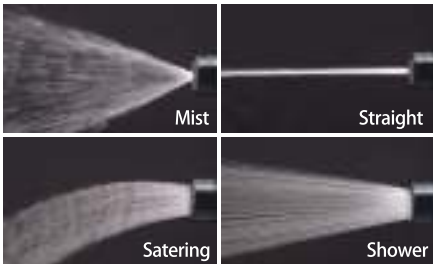

Shading layer to prevent
algae growth

Before

Pressure-resistant threaded design

This small, lightweight nozzle is easy
to use.
Click to allow water to flow,
and click again to stop the water flow.

*Water shape varies depending on water pressure.

Garden Cooler

Easy connect to a faucet!
Easy garden cooler

Fine mist lowers the temperature.

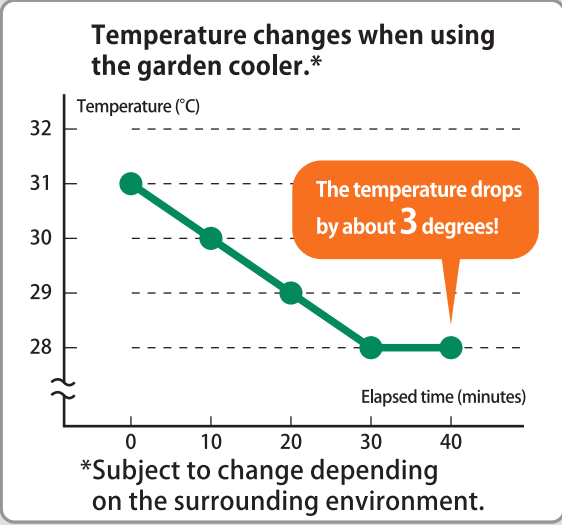

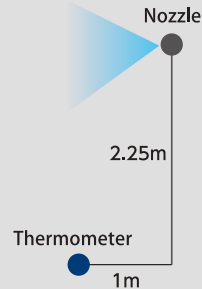

Water usage is approximately 230mL per minute.
It is eco-friendly and budget-friendly.

Test conditions/In-house research

Dynamic water pressure : At 0.4MPa

Wind speed : At 0m/s

Mist is sprayed parallel to the ground from nozzles installed at a height of 2.25 m. The temperature of a thermometer installed on the ground 1 m away from the nozzles is measured every 10 minutes.

Extending the garden cooler.

Progrip Series

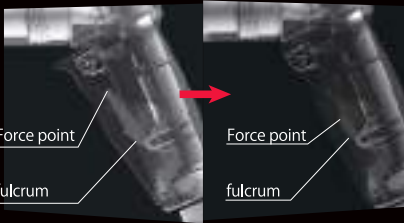

Luxury feel!

Non-slip and easy to grip!

Non-slip and easy to grip!

This lineup focuses on applications and ease of use.

Slim V lever

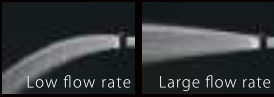

Can be operated with less force than conventional products.

One Click Lever

One-touch (push) switch between water flow and stop. One Click™ and 'One Click Lever' are registered trademarks of Takagi Corporation.

Water Saving Lever

The flow rate can be adjusted by switching the water-saving lever.

Soft rubber grip

The gripping part is made of soft rubber that is non-slip and easy to grip.

Pro grip series

2014

Winner of the
iF Design Award 2014

The iF design award is selected by the iF-International Forum Design Hannover (iF-International Design Hannover). The iF Design Award is selected by the iF International Forum Design Hannover (in Germany). It recognizes not only design aspects such as originality, innovation, and beauty, but also evaluates the overall product value, including performance, usability, quality, price, and environmental friendliness. The Red Dot Design Award, selected by the Design Zentrum Nordrhein Westfalen, is open to designs commercialized within the last two years. The award is judged on nine criteria, including design innovation, functionality, ergonomics, ecology, and durability.
